

Red Reflet Ranch

Exclusive

Beautiful

Unforgettable

In a quiet corner of Wyoming, all roads lead to adventure...

Bob and Laurence have transformed Red Reflet (Re-flay) Ranch into more than a family retreat: It is a full-service, exclusive Guest Ranch, complete with luxurious amenities. Bob and Laurence take great pleasure in sharing Red Reflet Ranch with one family or group at a time. If any Guest Ranch is a true resort, Red Reflet is!

Discover a world far from city life—a world closer to nature, full of wildlife and natural beauty.

At Red Reflet Ranch, all roads lead to a spectacular landscape far from everyday life... Red Reflet Ranch encompasses over 24,000 acres of land and includes elevations ranging from 4200 to 8000 feet.

Experience the contrast of cacti desert and canyons covered in Aspen and Pine trees, of rolling sage hills and multicolored rock layers in the foothills of the Big Horn Mountains. Reflect on the beauty that Mother Nature has amply provided while vacationing in the lower ranch, where the red chug water rim rocks dominate the landscape.

From wildflowers, such as Spring Beauty, Lupines, and Buckwheat, to wildlife, such as elk, mule deer, and antelope, the landscape is full of unforgettable surprises. So, bring your camera and hiking shoes while you plunge into the quiet and beauty of a landscape barely touched and lightly used since time began. You will soon sense a responsibility to leave the land in even better shape that it was found.

Experience the Western lifestyle on an unforgettable vacation at an exclusive working horse and cattle ranch.

At Red Reflet Ranch, all roads lead to adventure... Meet the ranch crew, work with them, and encounter ranch life first-hand.

Red Reflet Ranch's purebred Angus herd is a "mother-cow" operation, and there is always a lot of work underway—from raising the herd to putting up their winter feed of grass and alfalfa. Calves are born in February or March and shipped off the ranch in October or November, after having gained about 2 1/2 lbs a day on mountain grass and their mother's milk. The herd is on the high mountain pastures in late June through September and on the lower ranch the rest of the year.

As the Ranch's exclusive guests, you are invited to experience the friendly Western lifestyle as you "cowboy" the herd: Ride with the cowhands, move the herd as needed, and check the mountain springs and some of the Ranch's 70 miles of fences.
